Gigotter FOR BUSINESSES

Verified students. *Real results* on the ground.

Need customers signed up, a market surveyed or an app tested? Gigotter sends ID-verified university students to do it, with photo and location proof you can check. You only pay for work you approve.

WHAT STUDENTS CAN DO FOR YOU

Customer onboarding
Sign up shops, vendors or users for your product, in person.

Surveys
Responses from the right people, on campus or in the community.

Focus groups
Recruit and run sessions with your target customers.

Field research
Prices, stock and shelf checks in markets and shops.

App testing
Real users try your app and report what works.

Activations & errands
Sampling, flyer drops, campus drives and deliveries.

HOW IT WORKS

1. **Send us a brief**
   What you need, where, by when and your budget.
2. **We scope it and post the gig**
   Clear instructions and exactly what proof to collect.
3. **Verified students deliver**
   Each result comes with the proof you asked for.
4. **Approve and pay for results**
   Review every entry. Reject anything that misses the brief.

WHY GIGOTTER

Every student is verified
Student ID, national ID and a selfie, checked by our team.

Proof you can check
Photos, GPS pins and timestamps, set for each gig.

Pay only for approved work
Per result or a fixed budget. No retainers.

Clean data, ready to use
Download every response as a spreadsheet.

START SMALL

Try a pilot. *Pay only for results.*

Tell us about one task, like 50 survey responses or 20 business sign-ups, and see the quality before you scale.
